Increased Cyber Security for Citizens

Ms. Cammick voiced concern for the citizens regarding security of their person information after the hack of state computers last year. The Delegation discussed various aspects of a plan that is being implemented over the next few years to improve cyber security for the state's citizens. Cost was noted as a stumbling block for quicker implementation however the Delegation stated that they were confident that this matter was being addressed.

Education Funding as it relates to recent Supreme Court Decision

Mr. Dexter questioned [1] what plans are being developed to fund public education after the recent Supreme Court Decision, and [2] how it may impact Oconee County Schools. The Delegation noted that the order is not specific regarding remedies. In addition they also voiced concerns regarding the impact on Oconee County students; noting that additional study and funding recommendations from the Governor need to be evaluated. It was also stated that money is not the only answer to the education iniquity noted in the Supreme Court ruling.

State Palmetto Radio System

Mr. McCall voiced concerns that the system is not working as planned and that various public safety agencies are not able to communicate with each other. The Delegation stated that they were not aware of this issue and promised to look into the matter further when in Columbia.

State Turn Over of Short Roads to Counties

Several Council members voiced strong concerns regarding a proposed plan being discussed whereby the State would turn over short roads [+/- .25 miles] to the counties for the counties to maintain. Representative Sandifer stated that the Governor has stated that she will have a proposed plan by the end of January and that an Ad Hoc committee is currently reviewing this issue. It was noted that South Carolina has the 4th largest state road system in the US. Road paving costs were also discussed at some length. Mr. Thrift noted the SCAC's opposition to turning over these roads to the counties and the negative budget impact this would have on counties across the state. Senator Alexander noted that the plan at present would be to turnover short roads with dedicated initial funds; noting that the funding was one time only and not ongoing for the road maintenance. Lastly, bridges were briefly discussed.

Local Government Fund [LGF]

Mr. Dexter & Mr. Thrift questioned the Delegation regarding anticipated funding levels for the LGF in FY15-16. Representative Sandifer noted that based on discussions to date that Council should plan for budgeting purposes to receive the same LGF funding for FY2014-2015. Lengthy discussion followed.

Increased Animal Abuse Laws

Ms. Cammick addressed the Delegation utilizing a handout [copy filed with these minutes] expressing her concerns related to weak animal abuse laws and requested that the Delegation champion strengthening animal abuse laws in South Carolina. Lengthy discussion followed regarding examples of abuse issues and potential solutions.

Adjourn

Representative Sandifer thanked Council for their attendance noting his hope to schedule an additional meeting this year in the fall to follow up on issues discussed. He adjourned the meeting at 6:37 p.m.
