Public Comment Session

Mr. Jason Stephens addressed Council utilizing a handout [copy filed with these minutes] regarding grievances with a property in his neighborhood located at 641 Land's End Road.

Council asked Mr. Stephens what he wanted them to do and he answered saying he wasn't sure. Mr. Stephens noted there were not ordinances in place to address these types of issues.

Mr. Hart noted this was in his district and this is the number one complaint he receives. He turned the complaints over to Mr. Moulder and he has had the Sheriff's Department, DHEC, Building Codes, & Fire Department, escorted by the Sheriff's Department, out at the property.

Mr. Stephens noted he has spoken with all of the agencies that were named and noted everyone is quick to share their concerns but looking for someone to give answers.

Mr. Cain noted this is the first time this has been brought up at a Council meeting but will bring the issue up either under New Business or Old Business to ask the County Attorney where the ordinances are lacking so there are enforcement mechanisms to prevent future problems.

Council's meetings shall be conducted pursuant to the South Carolina Freedom of Information Act, Council's Rules and the Model Rules of Parliamentary Procedure for South Carolina Counties, latest edition. This agenda may not be inclusive of all issues which Council may bring up for discussion at this meeting. Items are listed on Council's agenda to give public notice of the subjects and issues to be discussed, acted upon, received as information and/or disposed of during the meeting. Items listed on Council's agenda may be taken up, tabled, postponed, reconsidered, removed or otherwise disposed of as provided for under Council's Rules, and Model Rules of Parliamentary Procedure for South Carolina Counties, latest edition, if not specified under Council's rules.

Mr. Root noted there was no need to wait until New Business or Old Business. He noted Building Codes has been out there and will be back out there for building code issues and international property maintenance code issues that we know are ongoing. Some progress was made about a month ago and apparently there has been some regression as far as the suitability of property for habitation. He further noted the animal code is being amended to address these animals and owners of the animals and being able to cite them. The fire issues were addressed but was notified by Chief Charlie King that it has gone in reverse as well and has become a problem again. Discussion continued.

Mr. Cain asked if we were lacking in our code that's in place currently. Mr. Root noted the issues that he knows about were articulated, we are not lacking, however, it would be good to have a full time Code Enforcement Officer for international property maintenance code issues, not only at this property but others. If there were anything lacking, it would be manpower issues. Discussion continued.

Mr. Stephens noted he understood there were certain areas of the property that were not inspected due to lack of search warrant. He further noted there were certain areas of the property that were not able to access, such as the back of the home and could only inspect what was seen from the road and the search warrant was denied.

Ms. Jean Jennings addressed Council regarding two parcels of land that the County owns. One parcel is at the Industrial Park at Fair Play and the other parcel is the land across from the County offices.

Mr. David McMahan addressed Council expressing his personal views and noted he is on his personal time. He thanked Council for the School Resource Officers [SRO's] which are very important to protect our children and public safety is the number one issue right now. He also addressed Council regarding dirty politics.

Ms. Debbie Sewell addressed Council regarding honeybees & pollinators and also invited the public to try some of the different honey that was on display from three different farms located in Oconee County.

Mr. Scott Rogers addressed Council noting his purpose is unity with Council and to look for the common ground and work together, along with the citizens, and we can achieve greatness.

County Council Response to Public Comment

Ms. Hart noted the word discrimination was used and noted the definition was "unjust and prejudiced, hostile treatment, and different categories of people. He further noted when someone asks for a Freedom of Information Act [FOIA] and asks for Ms. Cammick and other Council member's emails on two different categories and then wanted Ms. Cammick's and Amanda Brock's emails, letters, and communications on a different category, is this being discriminated against?

Mr. Cain addressed Mr. McMahan's comments regarding being threatened and noted he takes this very seriously and asked for him to meet with him after the meeting to speak about this issue. Secondly, he noted there were jobs that were threatened and action was taken. Furthermore, regarding the rock crusher, he noted there were lots of falsehoods that himself and Mr. Davis were behind this initiative to sell the Rock Quarry and noted this was false.

Ms. Cammick noted the most important issue presented today was from Mr. Jason Stephens and this requires

Mr. Hart made a motion, seconded by Mr. McCall, to amend the agenda to add an Executive Session item regarding an employment and personnel matter and salary in relation to a department head within Pine Street offices.

Mr. Root noted the Executive Session item is to have the discussion regarding the parameters of this issue and because it is a motion to amend at this juncture, no final action could be taken unless there was an emergency circumstance. He further noted because it is an employment matter, it is appropriate to have during Executive Session.
