

# Oconee County Regional Airport

## Directors Report: October 17<sup>th</sup> 2017

### AIRFIELD:

- Our airport took a lightning strike during a bad storm last week. The storm hit a taxi light and then knocked out 40 plus, other taxi lights on that same circuit. We are close to having all the lights back in operation.
- The Non Directional Beacon paperwork is back and the FAA has **no objection** to the proposal of decommissioning our NDB. The facility will be decommissioned and IFR charts and FAA publications will be amended on May 24, 2018. It is currently out-of-service and a NOTAM has been issued and will be published as shutdown, effective December 7, 2017.
- Large storm water Detention quote. (Explain)

## **Operations:**

- Temporary tower operation.
- New Game Day Shuttle service activity. (Explain)

## **Capital Projects:**

- I have a meeting with the State about airport pavement issues, air traffic control partnership and apron expansion enhancements, to plan for FY 18 and beyond.  
I will give a summary of this meeting in the primary portion of the agenda.
- WK Dickson will review Capital Improvement Plan.

## **FBO FINANCIALS:**

- See attachment

## **Other:**

- Economic development will have a table at the Clemson vs Florida State game to meet and greet. They will also be distributing Oconee County material.
