7. **Public Discussion Section**
 - Concerns and questions regarding runoff and drain water management
 - i. There is an ordinance takes effect once county reaches a population of 75,000
 - ii. MS4 is the ordinance.
 - iii. The county is not required to enforce the ordinance yet because the ordinance is based on population *and* density
 - iv. until this regulation is a requirement for the county, they will not opt into it
 - v. Runoff and erosion is an issue that is getting worse
 - Timber
 - i. The timber industry in the surrounding area is extremely low due to lack of mills to haul to, as well as prices being too low to make any money hauling long distances. without being able to manage the forests, the pine beetles come in and cause more damage,

resulting in sick forests.

- Education
 - i. Discussion ensued on FFA's efficacy on channeling kids into agricultural careers.
 - ii. There is a lack of support for students participating in agricultural work studies when the work study requires that they miss school meetings.
 - iii. Each school in the county emphasizes different areas of agriculture.
 - iv. Hands-on learning for agricultural careers is the most effective.
 - v. Concerns were expressed about the switch to year-round school in Oconee county. Spring and summer are peak farming times and reducing break time in the summer reduces the amount of farm time for kids looking for experience and/or working on family farms.
- Road conditions
 - i. Campbell road looks like a one lane road right now. the lines are extremely faint and there is a lot of overgrowth

8. Adjourn: Ms. Moxley made a motion to adjourn at 6:49pm, seconded by Mr. Smith and approved 5/0.
