The City of Walhalla Fire Department would like to look at putting fire hydrants in the unincorporated area of our fire district to help lower I.S.O. in that area. After looking at the water system we can only install seven fire hydrants in the system due to the size of the water lines. Each fire hydrant will cost around \$5300.00. We had Lisa from GIS to do a survey of the water lines and she came up with the most impactful Hydrant Locations. After speaking with the City Council they have ask if I would meet with Oconee County to see if they could help with funding this project. Total cost to install seven fire hydrants would be around \$ 37,100.

THANK YOU
Fire Chief: John D Kelley
